DARcorporation Announces New Location and Website!

Due to our continuous growth, DARcorporation is proud to announce that our business has moved to a new location!

With an office space more than twice the size and a shop more than three times the size of the previous location, we have room for more staff, larger projects and greater capabilities.

Our new location features a two-story office to allow for employment growth, a 5,000 sq. ft. shop that will house our new manufacturing and testing complex, a 3-D Printing lab, a software training room and a huge library. And we have plans to expand

even further, so we can perform more manufacturing and testing tasks in-house.

New Address:

Design, Analysis and Research Corporation
910 E. 29th Street
Lawrence, Kansas 66046 USA

Ribbon Cutting Ceremony & Open House!

Date: Thursday, May 9th, 2019
Time: 4:00 pm CT
This will be a catered event.

(785) 832-0434 • info@darcorp.com • www.darcorp.com

New and Improved Website!

New Aircraft CAD Models Available at our [Online Store](#)

Several new aircraft CAD models are available for sale on our website. New CAD models include:

- AAI Shadow 600
- Beech King Air 350
- Boeing 737-900
- Republic XF-91 Thunderceptor (Cruciform Tail)
- Republic XF-91 Thunderceptor (V-Tail)

CAD models are available in 3 categories: Aircraft (\$99), Weapons (\$49) and Miscellaneous (\$19.95).

DARcorporation has over 100 aircraft models available for purchase. Types of aircraft include:

- Business Jets
- Commercial Airliners
- Fighter Jets
- GA Airplanes

Beechcraft King Air 350

Boeing 737-900

Republic XF-91 Thunderceptor (Cruciform Tail)

- Gliders
- Military Bombers
- Military Transports
- Fixed Wing UAVs

The aircraft CAD models were created by DARcorporation engineers using Siemens NX based on publicly available, open source data (not manufacturer's data) from sources like Jane's All the World's Aircraft, Roskam's Airplane Design Series and publically available government reports.

Disclaimer: DARcorporation cannot guarantee the accuracy of these models due to limited public information.

Click below for a complete list of CAD models available on our Store.

April 30 - May 2, 2019
McCormick Place Convention Center, Chicago

Exhibit Hall Booth: [#622](#) (On the right hand side, just south of the Main Aisle)

We will be featuring our Propeller, Ducted Fan & UAV/Drone Design Services at our XPONENTIAL 2019 booth. Come visit us and talk about UAV propeller, helicopter rotor and tiltwing/tiltrotor proprotor design, impact of propellers on UAV performance or UAVs in general.

Sign up [here](#) for your free complementary pass to the trade show courtesy of DARcorporation.

New Webinar on History of Airplane Design

May 15, 2019
11:00 AM - 12:00 PM CT US

Instructor: [Dr. Jan Roskam](#)

Description: Dr. Jan Roskam continues the informative History of Airplane Design webinar series, focusing on specific companies and their contributions to the commercial, military and transport aircraft industries. Companies include McDonnell and Boeing. Topics covered will include the McDonnell Banshee, Demon, Phantom I and II as well as the F-18 and AV-8B and the Boeing B-19 bomber, the Boeing 314 commercial flying boat, the Stratoliner, Stratotanker, Stratofreighter and Boeing's 7 series. This is a free webinar and is presented live and will not be available after the webinar.
