

February 2020

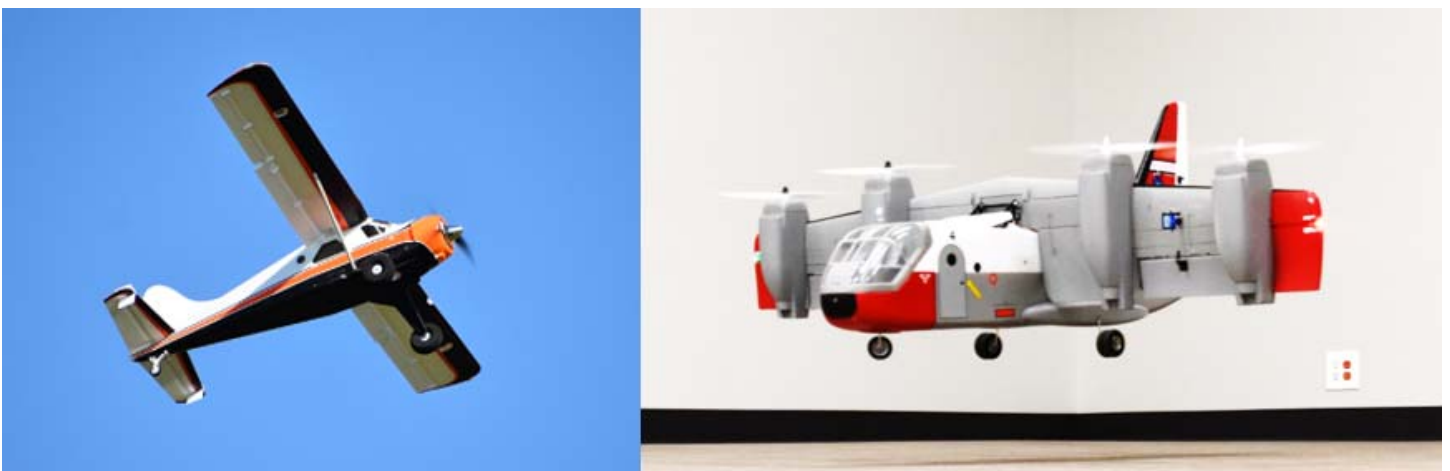

Since moving into our new space last March, we've been expanding and upgrading our facility and are excited to announce the following.

NEW Testing & Manufacturing Services!

New Fabrication Capabilities

Our new CNC Foam Cutter offers a cost-effective option for Rapid Prototyping of single-curvature and/or double-curvature airframe parts. Our welding capabilities enable us to construct strong test fixtures in a timely manner.

UAV Flight Testing

DARcorporation has a collection of RC models which expand our data acquisition methods for new UAV designs and allow us to provide flight test that can integrate your mission payload technology and characterize your propulsion systems. We offer a full spectrum of in house and field-testing services performed by engineers with extensive Aerospace Flight Test Engineering experience.

Software News!

Aircraft Performance Program (APP) 7.0.2.0 is Released

APP 7.0.2.0 new features include new mission segment and other improvements.

[APP Release Notes](#)

New CAD Models

New CAD models include: Cessna 150D, NASA GL-10 Greased Lightning and Embraer E170. All models were created using Siemens NX CAD. [View Online Store](#)

Disclaimer: All models are based on publicly available data. DARcorporation does not guarantee the "true to life" accuracy of these models due to limited information.

Conferences & Air Shows!

AeroSpace TechWeek, Toulouse, France March 18-19

Dr. Willem Anemaat will present a research paper on UAV Motor Characterization Testing on Wednesday, March 18 at 11AM in the Salon D'Honneur room.

SAE International AeroTech, Pasadena, CA March 17-19

Dr. Wanbo Liu will present a research paper on Integrated Electric UAV Propulsion Design and Testing for High Efficiency on March 17th at 2:00AM in Conference Room 102.

**AUVSI Xponential, Boston, MA
May 4-7**

DARcorporation will be at Booth #1404 - Come See Us!

**EAA Airventure, Oshkosh, WI
July 20-26**

DARcorporation will host a Booth in Hanger C (#3072A) - Come See Us!

**Royal Aeronautical Society
Applied Aerodynamics Conference
Bristol, United Kingdom July 28-30**

DARcorporation is a proud sponsor of the 2020 Royal Aeronautical Society Applied Aerodynamics Conference!
